OFFICIAL WATCHCERT AUTHENTICATION REPORT

1. Watch Details:

Brand: Omega

Model: Seamaster Planet Ocean

Production Year: Unknown

Authentication Score: 93/100

Result: Very Likely Authentic

Certificate Eligibility: No

Appraised Market Value: Not assessed

Observations:

- **Brand Marker Conflicts:** No
- **Cross Brand Components:** None
- **Image Coverage:** Complete
- **Image Clarity:** High

2. Dial & Hands:

Subcategory	Score	Explanation
Logo placement and font accuracy	8/8	Omega logo, 'Seamaster' and 'Professional' text are sharp, well-placed, and consistent with authentic Omega Planet Ocean models. Font matches known authentic examples.
Hand shape, size, and color accuracy	5/5	Hour and minute hands are correct broad-arrow style with appropriate length and finish. Seconds hand has correct orange tip matching Omega design cues.
Dial printing and indices	7/7	Indices are applied with proper depth and luminescence. Dial printing is clean and crisp, including the small white texts and depth rating in line with genuine models.
Date window position and typography	N/A	Date window is visible but detailed typography not fully clear enough for precise assessment.

3. Case & Crown:

Subcategory	Score	Explanation
Case shape, lug design, finish consistency	6/6	Case and lug shapes match Omega Planet Ocean characteristics with polished and brushed finishes consistent across surfaces.
Crown shape, logo, and positioning	5/5	Crown shows typical Omega brushed finish and signed with accurate Omega logo. Positioning and proportion are correct.
Engravings / rehaut / stamps visible	4/5	Engraved caseback text partially visible and well-executed but minor obscurity due to angle. Words 'PLANET OCEAN', 'PROFESSIONAL', and depth rating are clear and consistent with authentic examples.
Caseback design accuracy	4/4	Exhibition caseback with sapphire crystal reveals Omega Co-Axial 8500 movement, consistent with authentic Omega workmanship and rotor engraving.

4. Strap & Clasp:

Subcategory	Score	Explanation
Strap material/texture/stitching plausibility	3/3	Stainless steel bracelet shows correct brushing and polished finishes; construction consistent and high-quality.
Fit/integration/end links	4/4	Bracelet fitting between lugs is tight and precise; end-links match case curvature well indicating good OEM fitment.
Clasp/buckle markings and mechanism	3/3	Omega logo on clasp is accurately embossed; deployment buttons visible and consistent with authentic Omega clasp design.

5. Movement:

Subcategory	Score	Explanation
Rotor design and markings	4/4	Rotor is fully visible with proper Geneva wave decoration and red 'OMEGA CO-AXIAL 8500' text matching genuine Omega engine.
Movement layout and components	4/4	Visible movement components and layout match Omega Caliber 8500 architecture including jewel settings and finishing.
Engraved text	4/4	Engraved text on movement including 'Si14', 'Co-Axial 8500', and other markings are clear, sharp, and accurate.

6. Photo-Based Identity & Evidence:

Subcategory	Score	Explanation
Brand marker consistency across images	3/3	Omega branding consistent on dial, crown, caseback, and clasp in all images with no discrepancies.
Model family consistency across images	3/3	All images align with known design elements of Omega Seamaster Planet Ocean family.
Evidence coverage completeness	2/2	Images provided cover dial, case, crown, caseback, bracelet, clasp, and movement giving full visibility for authentication.
Image clarity & inspectability	2/2	Images are high-resolution and well-lit with clear detail visible on logos, texts, and finishes.

7. Bonus:

Subcategory	Score	Explanation
Metadata consistency with visuals	1/1	Metadata brand and model info matches observed watch visually.
Online presence match	0/1	Not independently verified in this assessment.
Model-specific micro-detail confirmed	1/1	Micro details such as the orange 'Seamaster' script and red rotor engravings match known model specifics.
Known counterfeit pattern detected	1/1	No known counterfeit markers or suspicious elements detected in images or details.
Image clarity & lighting excellence	1/1	Images are professionally shot with excellent lighting enhancing detail visibility.

8. Score Calculation:

Earned Points: 56
Assessable Points: 60
Normalized Score Before Caps: 93.33
Applied Cap: 93
Final Authentication Score: 93

9. Final Recommendation:

Authentication Score: 93/100
Result: Very Likely Authentic
Certificate Eligibility: No
Appraised Market Value: Not assessed
Estimate based on recent sold comparables; box/papers may add 5–15% to value.
Next Steps:

- Obtain reference and serial numbers to complete provenance research.
- Perform hands-on inspection for movement operation and water resistance test.

Scope & Limitations

This report is generated from user-supplied media using WatchCert's proprietary analysis informed by a reference library of 50,000 + official brand documents and verified comparables. While WatchCert is designed to provide one of the most accurate remote assessments available, it remains an AI-assisted opinion based solely on images and metadata. It is not a certificate of authenticity and not for insurance, tax, or legal use. Valuations are indicative estimates and not offers to buy or sell. The most reliable determination requires an in-person physical inspection by a qualified professional. Provided "as is," without warranties; WatchCert and Four Leaf Clover Ventures disclaim liability for actions taken in reliance on this report.
